DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. The “possessing high stability” limitation for Cefotiofur sodium which appears twice in claim 1 is of unknown import. What kind of stability is this --- stability to heat? Acids? Bases? Does this refer to stability of the solutions or the dry compound? Further, what does “high” require? Where is the line between “high” and not high?
2. What does the “large excess” entail? The claim already says 12-18 moles per mole. Is something beyond that required? If not, deletion is suggested. If so, what?
3. What does “easily hydrolysable” entail? Where is the line between easily hydrolysable and hydrolysable with difficulty?
4. The “substantially free of impurities” is an unclear limitation. The claim already requires “purity of more than 97%”, so what beyond that does “substantially free of impurities” require?
5. “Preferably” in claims 2 and 5 is improper alternative language (In re Kingston, 65 USPQ 371). Applicants may wish to put this alternative in a dependent claim.
6. The dash should be removed from before the “2” in claim 6, line 3.
7. The “of” needs to be removed from last line of claim 6.

Art Unit: 1624

8. Claim 2 is unclear as to how this limitation should work. Does this apply to step (i) or step (iii) or both?
